

Governor's Office of
PLANNING AND BUDGET
THE STATE OF GEORGIA

Census 101

Anna Wrigley Miller

What is the plan?

- What is the Census?
- What happened in 2020?
- What is next?
- What does it mean for me?

What is the Census?

- The first census was taken in 1790
 - As designated by the Constitution
 - Conducted every 10 years
- Until 1941, the number of Congressional seats grew with each Census
 - The number of seats was set at 435
 - Assigned using the method of equal proportions
 - Each state gets 1 seat and then the others (51- 435) are divided up proportionally

What is the Census?

- The United States Census Bureau
 - **Decennial Census of Population and Housing**
 - Economic Census
 - Census Estimates Program
 - American Community Survey
 - Other special Census projects
- Census 2020

2020 Census... What happened?

- Timeline changes due to COVID impacts
 - Collection deadline extensions
 - Result delivery extension
 - Historical Census fun fact...

2020 Census... What happened?

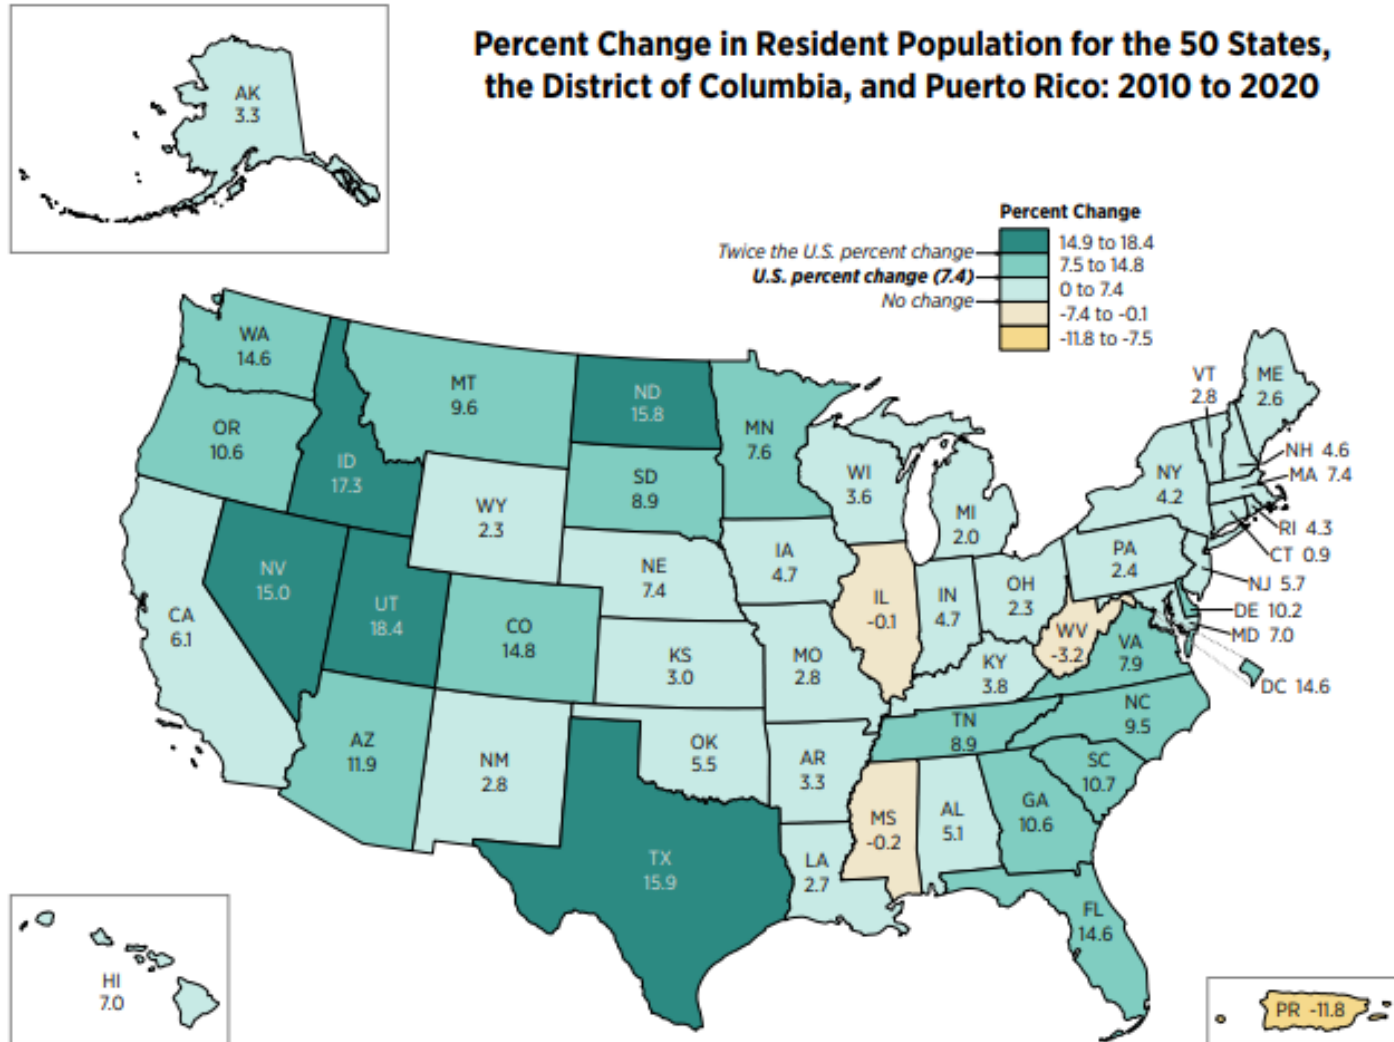

- Apportionment release
 - April 26, 2021
 - Georgia districts stayed the same (first time since 1990)
- Redistricting files release (Two releases)
 - “legacy data”- PL: 94-171
 - August 12, 2021
 - Full redistricting data toolkit
 - Release by September 30, 2021

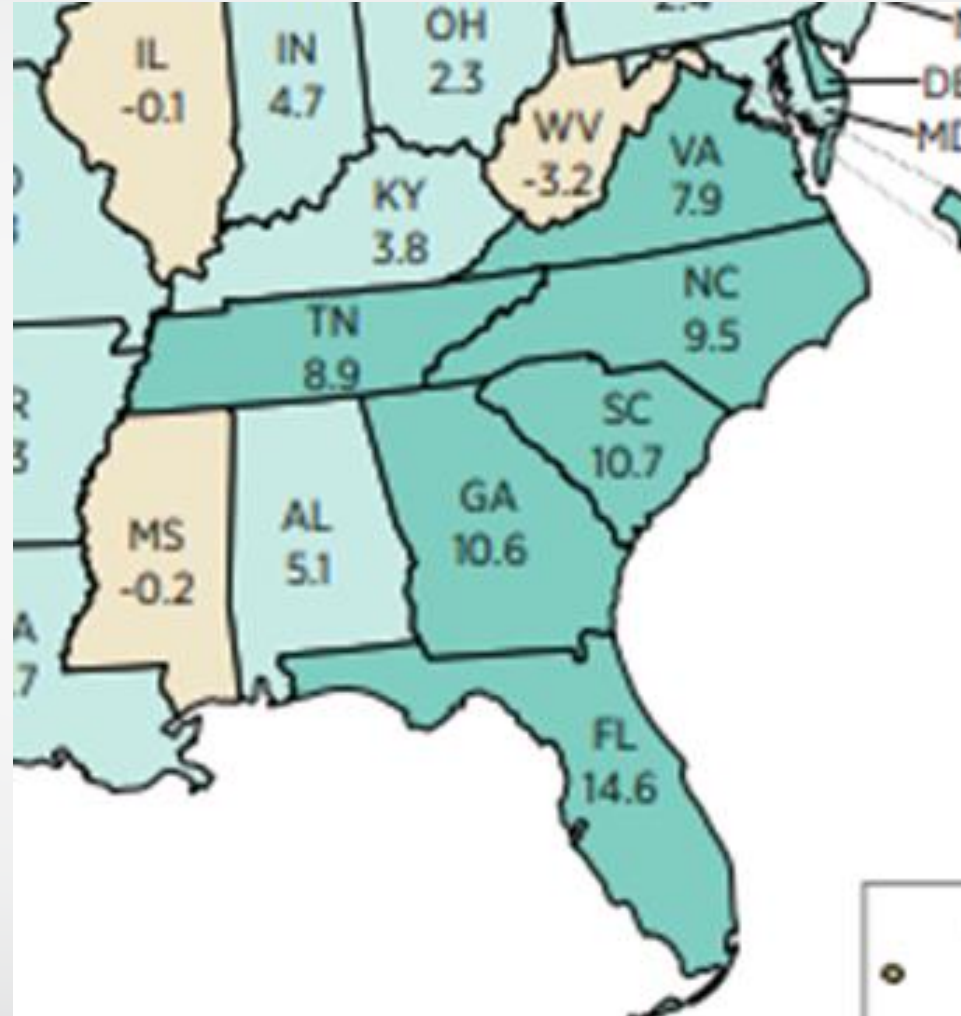

National Census Results

- The largest county in the United States in 2020 remains Los Angeles County with over 10 million people.
- The largest city (incorporated place) in the United States in 2020 remains New York with 8.8 million people.
- 312 of the 384 U.S. metro areas gained population between 2010 and 2020.
- The fastest-growing U.S. metro area between the 2010 Census and 2020 Census was The Villages, FL, which grew 39% from about 93,000 people to about 130,000 people.
- 72 U.S. metro areas lost population from the 2010 Census to the 2020 Census. The U.S. metro areas with the largest percentage declines were Pine Bluff, AR, and Danville, IL, at -12.5 percent and -9.1 percent, respectively.

Change in Resident Population

Southern Region Population Change

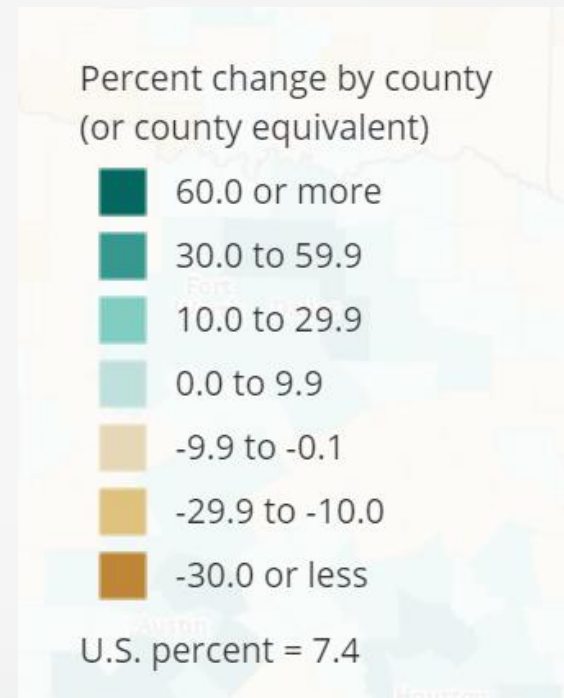

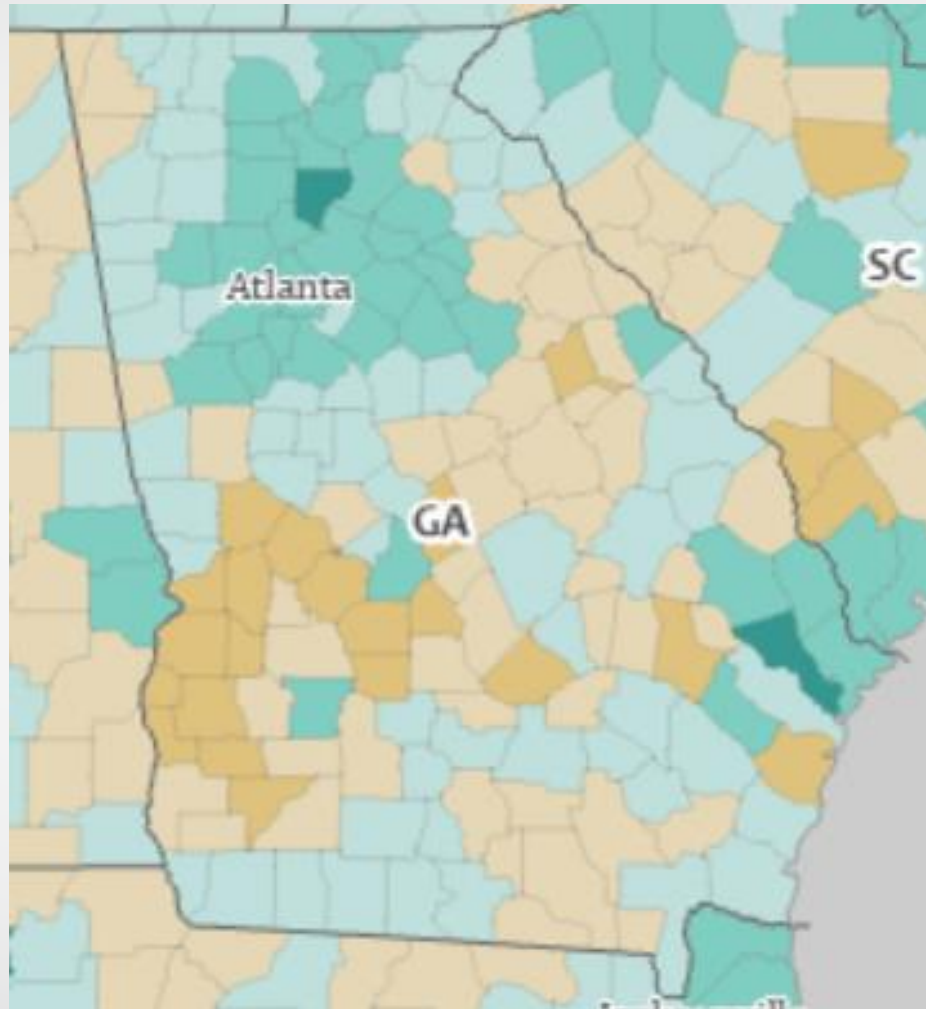

Georgia 2020 Census Statistics

- Total 2020 Population: **10,711,908**
- *Total 2010 Population: 9,687,653*
- Numeric increase **1,024,255**
- Percent change increase: **10.6%**

Data Sources Used for NTD Submission

- Vehicle inventory file
 - Current, surpluses, sold vehicles as of June 30, 2021
- QRyde service data
 - VRM, VRH, sponsored and total OWPT, etc.
- Final reimbursement forms
 - Provides key fiscal data for many operational fields
- Fiscal services capital and operating files
 - Links bus sales to individual sub-recipients, provides admin costs, etc.
- Additional information from Intercity Operators, TAMS team, GDOT, sub-recipients (e.g., incidents, facilities with primary capital responsibility, etc.)
- Additional documentation required for audits (e.g., farebox certifications)

NTD Submission Process

Updating in NTD: A Guide for Small Systems Reporters in Georgia

Conor Hill and Laurie A. Garrow

Georgia Institute of Technology, Atlanta, GA, 30332, United States

4 May, 2021

2.1 Identification (B-10)

2.1.1 Overview

This form is used to verify what type of organization each transit reporter is. Some common organization types include: independent public agency; unit/department in city, county, or local government; unit or department in state government.

Since all rural reporters for Georgia are legal entities operating the transit service under the city or county municipality, they should report as 'City, County, or Local Government Unit or Department of Transportation'. For this reason, transit agencies report public transit data on behalf of the city, county, or local government.
